# Spoonful o' Sugar TEACUP COASTERS

a free pattern from **wolf and willow**®

## SHOPPING LIST

### materials needed:

1/8 yard x PATTERNED cotton fabric  
1/8 yard x NATURAL quilt batting  
matching thread

### sewing notes:

All SEAMS are 1/2". All FABRIC in 44" – 45" bolts.

## LET'S GET STARTED

### cutting it out

- 1 Print and cut out the teacup coaster pattern pieces. Cut 2 from the PATTERNED fabric. You might like to use a different fabric for each side, so your coaster is reversible!

- 2 Now cut 1 from the quilt batting.

### stitching it up

- 1 With **right** sides facing, and the batting at the back, stitch the coaster pieces together, leaving a 1" gap at the side.

**tip:** I like to pin the paper template to my fabric as a guide. This makes it easier to sew perfectly around the curves. You can simply tear away the paper at the end.

- 2 Trim seams and clip corners. Turn right side out, and press firmly.

- 3 Top stitch the edges of the coaster, about 1/4 inch from the edge, being careful to close the gap neatly. Ah, there you go. Now sit down and enjoy a giant cup of tea!
